Justrite Folding Utility Trays

Compact, Portable Spill Containment Made Easy

Justrite Folding Utility Trays provide fast, reliable spill containment without taking up valuable space. They unfold in seconds to catch drips, leaks, and minor spills during maintenance, cleaning, or fluid handling. Ideal for work vehicles, field crews, and facilities with limited storage, these trays contain spills to keep work areas clean and safe.

Why Choose Justrite Folding Utility Trays?

Compact Storage

Folds flat to easily fit in service trucks, work vehicles, or tight spaces

Quick Deployment

Unfolds in seconds for fast spill response and routine maintenance

Built Stronger to Last Longer

Rigid wire supports in the walls and heat-welded seams prevent sagging or leaks, ensuring reliable containment where other collapsible trays fail

Elevated Grate Model

Elevates containers, tools, or parts above spills for a cleaner workspace while safely collecting liquids for reuse or disposal

Rugged Chemical Resistance

Durable PVC resists oils, fuels, coolants, and common shop chemicals without leaking or degrading

Made in the USA

With US & imported parts

Built to high-quality standards for reliable performance you can trust

Folding Utility Trays support EPA and OSHA guidelines for secondary containment and promote safe handling and disposal of hazardous liquids.

Small leaks and drips shouldn't slow your work or create a mess. Justrite Folding Utility Trays unfold in seconds to protect work surfaces and capture leaks from containers and equipment. Compact, rugged, and ready when needed, they help keep workspaces clean and operations running smoothly.

Perfect for maintenance bays, service vehicles, fluid transfer or equipment service areas, these trays provide a convenient way to contain tools, parts, and small components during messy tasks. They fold down for easy storage under a vehicle seat, in a spill kit, on a workbench, or in a maintenance cart, so they're always within reach when the job calls for it.

Features and Benefits

- **Space-Saving Storage:** Folds flat and secures with an attached hook-and-loop strap for easy storage in tight spaces, vehicles, or maintenance areas.
- **Rapid Deployment:** Unfolds in seconds for immediate spill response or temporary containment.
- **Durable Structure:** Rigid wire-frame walls stay upright and maintain shape, preventing sagging or collapse under load.
- **Elevated Grate Model:** Keeps containers and equipment above collected fluids to reduce mess and simplify handling.
- **Rugged Construction:** Durable PVC resists oils, fuels, coolants, and other common liquids in a one-piece design with no loose parts to manage.
- **Versatile Sizing:** Available in three sizes to fit a wide range of applications.
- **Reusable & Easy to Clean:** Designed for repeated use and simple cleanup.
- **Proudly Made in the USA With US & Imported Parts:** Built with high quality craftsmanship for dependable performance.
- **Supports Compliance:** Helps meet secondary spill containment best practices.

Model Number	Description	Dimensions (L x W x H)	Weight	Spill Capacity
28585	Folding Utility Tray	45.7 cm x 45.7 cm x 10.2 cm	0.5 kg	18.9 L
28586	Folding Utility Tray	64.8 cm x 64.8 cm x 10.2 cm	0.9 kg	34.1 L
28587	Folding Utility Tray with Grate	64.8 cm x 64.8 cm x 10.2 cm	4.5 kg	30.3 L
28588	Folding Utility Tray	91.4 cm x 91.4 cm x 10.2 cm	1.8 kg	75.7 L
