Justrite Safety Group

Safety Storage
& Material Handling

We support you. Always & Anywhere

We want all of our customers to experience fast and easy access to all of our services and get timely answers and solutions. To do this we take advantage of the Justrite Safety Group proprietary IT tools and systems coupled with the departments organization and management.

Sales support

- Dedicated account managers
- Multi-lingual customer support team
- Field support and joint end user visits
- Support in defining the best custom solution

Worldwide delivery and drop shipment

- Stock of standard products
- Drop shipping optimized packaging
- Custom packing lists and delivery notes
- Fast delivery service

Technical assistance and consultancy

- Remote assistance
- On-site assessment
- On-site consultancy
- Feasibility studies
- Structural analysis and testing
- Data sheets for every product
- Safety Survey STUD-E™

Safety training

Free safety training about safety regulations and the proper use of our products.

After sales and maintenance

Fast answers to your questions, timely service where and when you need it.

Marketing support

All the materials you need are always available for you in various languages.

Our extensive experience in the safety field and our deep knowledge of regulations and standards are at your service to guide you in a complete walkthrough of your facility for clear threat and site vulnerability assessments. We will help you to correct the problems through a printed or emailed document so you can implement it as an action plan for preventing future accidents.

Discover much more on our website sall.it!

Your safety is our priority

Since our foundation in 1975, Sall has experienced rapid growth thanks to continuous investments in technology, innovation and high level skills and competencies.

In 2017 Sall joined Justrite Safety Group, a leading manufacturer in workplace safety and environmental protection founded in 1906, to expand the safety product range.

Sall is a leading Italian brand specialized in designing and manufacturing safety storage and handling solutions.

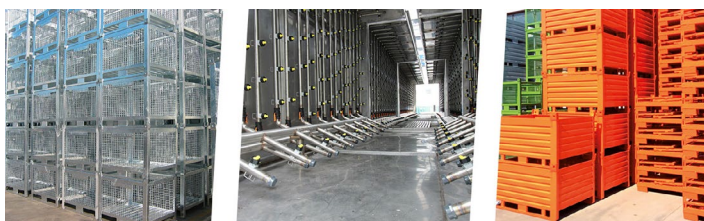

Sall offers an innovative and complete range of industrial safety equipment for material handling and storage, waste management and spill control.

Our priorities

- EU norms and regulations compliance
- Workplace, people and environmental safety
- Comfort of use, user-friendliness and design to improve efficacy and ease operations

All of our **standard products** and **custom-made solutions** are designed and manufactured in compliance to current regulations and are tested to provide the highest safety level for people, workplace and environment.

The new Sall headquarters is a warehouse dedicated in stock products and a new painting facility for fast delivery and fast colour customization.

Start with the EssentialSM

A Growing Justrite Family

In recent years we have grown, expanding Justrite Safety Group through the acquisition of other strong, valuable companies. Because of these exciting changes, we want to share our story with you—one of an unrivalled safety portfolio, expertise in environmental protection, a global network of brands, and a steadfast dedication to our customers' safety.

Start with the EssentialSM

The essence of our company is captured in a new tagline: Start with the EssentialSM. At Justrite, everything starts with safety. Protecting people, property and the planet is our first and greatest responsibility. We provide the essential safety products you need to protect your workers and workplace.

Our company logo has recently evolved. The new logo honours our heritage in fire safety, while reflecting our expertise in containment and environmental protection.

Justrite Safety Group offers industrial safety solutions and professional advice from our subsidiaries around the world.

We cover every aspect of industrial safety: from storage, containment and cleaning of hazardous materials, to safety in handling and emergency showers.

Whatever your need, we can help you build the foundation to make your workplace safe and efficient.

Spill pallets

The Sall multipurpose painted steel container can be used for extraordinary aerial maintenance with due diligence.

The main basket can be used when no other safety platform or equipment is able to provide a superior safety level. The multipurpose painted steel containers are for urgent repairs and can be safely used with a forklift thanks to the forklift sleeves which are equipped with a safety mechanism to prevent slipping.

Available also with wheels: 2 fixed and 2 castors with brakes. This multipurpose container comes with a user manual, warning signs, and an identification plate.
