# Squeeze Bottles

## Dispensing Bottles and Bottle Jacket -

Made of polyethylene with a stainless-steel wire, squeeze bottles provide safe dispensing of flammable liquids directly on small components or sub-assemblies with minimum over-spray. . Intended for daily use only.

- Squeezing the bottle produces a fine stream of liquid
- Stem can be shaped to dispense into hard-to-get areas
- Intended for daily use only

- For safe dispensing of flammable liquids on small components, both minimizing overspray and allowing access to hard-to-reach areas.

Recommended use

# Dispensing Bottles and Bottle Jacket - Squeeze Bottles
