

Biohazardous Poly Waste Cans

Offers safe temporary storage of potential biohazards

Safety Cans & Containers - Biohazardous Poly Waste Cans

Eagle Biohazardous Poly Waste Cans are constructed of red high density polyethylene (HDPE) and offer safe temporary storage of potential biohazards.

- BIOHAZARDOUS sticker on the front to advise workers of potential biohazards
- Meets OSHA requirements for exposures to blood borne pathogens
- Will not rust or dent, are resistant to most chemical compounds
- Has no seam for a leak proof construction
- Features self-closing lid with foot lever
- Flared base for added stability
- FM Approved

Recommended use

- For separation, identification and containment of biological or hazardous waste that requires special handling, treatment and disposal for use in laboratories, health facilities, clinics, manufacturing plants, assembly lines, picking, packing and logistics warehouses, and individual workstations.
