RR Tiles and Rolls

Made of 100% recycled rubber, Notrax®'s RR Tiles and Rolls feature a dense construction that provides high impact durability making it also scuff and stain resistant. RR Tiles and Rolls combine anti-fatigue and ergonomic comfort properties with minimal maintenance and is slip resistance in both wet or dry conditions. The product is suitable for indoor applications that require resilience, sound absorption, spike resistance and has high traction even when wet. RR Tiles and Rolls are resistant to water based liquids including urine.

Notrax®'s RR Tiles and Rolls are easy to install and maintain with the built-in interlocking system. For light-duty applications, including temporary or portable applications, rolls can be laid directly on floor with no glue or adhesive required. For light commercial applications, where there will not be heavy objects dropped on the ground or equipment being moved or dragged across the floor frequently, double-sided tape at the perimeter and seams is recommended. For heavy-duty or industrial type applications, where there is pneumatic tire traffic (forklifts) or heavy foot traffic, it is recommended to glue mat down to the floor.

Applications Uses:

- Gym/ Fitness centers
- Training rooms/ Physical therapy
- Disabled access ramps
- Locker & Rest rooms
- Doggie Day Care & Veterinary clinics
- Walk-in coolers
- Walkways and isles

Features and Benefits
