**692 - MASTERFLEX®**  
**HEEL-PROOF**  
PRODUCT INFORMATION BROCHURE

For over 70 years, the name Notrax® has meant superior quality, service, and innovative products. Now this brand is a cornerstone of Justrite Safety Group, offering the widest selection of products to a variety of markets and applications including entrance mats, anti-fatigue/safety mats, and products designed specifically for use in professional food service environments. Notrax® offers a complete selection of floor matting options to meet any application requirement, quality expectation, and budget.

- **Track record of manufacturing high quality mats for over seventy years**
- **All products are manufactured in ISO certified facilities**
- **Notrax® offers anti-fatigue matting, entrance matting, safety matting, food service matting and specialty mats designed for a variety of industries**

**692 - MASTERFLEX® HEEL-PROOF** is an open construction with small octagonal ring design for drainage that even high heels can walk across with ease. The design blends the functionalities of a multi-zone entrance matting system with the ease of on-site modular installation into an effective matting solution. This full-service matting system offers a smooth and harmonious transition from outdoor to indoor. Offering all the benefits of a matting tile; it is easily installed, rearranged or replaced. What makes it revolutionary is the interlocking system that creates a durable and seamless connection that can be effortlessly installed without glue. The tiles cover sizeable areas easily and can be assembled on-site for installation in recessed frames in large entrances. MasterFlex™ Heel-Proof is made from a durable natural rubber compound that is inherently resilient, anti-slip and withstands the heaviest foot traffic. The mat has excellent adherence and adapts to any surface while the raised studs underneath allow water to drain through, keeping the surface clean and dry. Its smooth surface makes it suitable for wheeled access including: carts, wheelchairs, suitcases, etc.

**Material:** Natural Rubber

## Features and Benefits:

- Natural rubber compound
- Outdoor or indoor – heavy foot traffic
- Octagonal ring design with open construction
- Suitable for use in extreme weather
- Tiny drainage holes diameter 3mm, specially designed for high heels
