

# Angle Bracket QuickBerm®

Galvanised wire L-bracket flexible spill berm

# Angle Bracket QuickBerm®

## Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems

The Angle Bracket QuickBerm® secondary spill containment berm is light enough to carry but tough enough for heavy use in outdoor and challenging environments. Designed for static setups, it's ideal for applications where minimal movement is needed.

- Economical and Portable – Cost-effective solution for various containment needs, with a foldable design for easy storage and transport
- Easy Setup – Rounded-edge angle brackets enable quick and seamless installation
- Durable Construction – Made with Modified PVC Coated Fabric, offering chemical resistance and long-term UV protection
- Reliable Sidewall Support – Metal L-brackets reinforce sidewalls for superior structural integrity and reliable spill containment; galvanized steel brackets on 12” and 18” models and aluminum brackets on 24” models ensure long-term durability and rust resistance
- Reinforced Corners – Designed to maintain shape and ensure fluid-tight containment
- Fray-Resistant Walls – Equipped with a 1-inch finished hem along the top rim, strengthening wall integrity and enhancing durability

- Indoor/Outdoor
- For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
- Heavy duty

Recommended use

# Flexible Spill Containment - QuickBerms® Flexible Spill Containment Systems Angle Bracket QuickBerm®

## General

Product alternatives	Metal brackets made from uncoated steel that will rust and corrode over time (dirty, rusty, stains)Aluminum is more expensive and not as strong
Brand	Justrite
Category	QuickBerms® Flexible Spill Containment Systems
Product Number	2808
Product Family	Spill Control & Environmental
Product Group	Flexible Spill Containment
Industry	Industrial, Material Handling, Power Generation, Construction, Manufacturing, Automotive
Product Name	Angle Bracket QuickBerm®
Recommended use	For use as secondary containment for outdoor or temporary storage applications of chemicals, transformers, generators, metal/poly tanks, IBCs, oiling/refueling operations thereby safeguarding the environment, preventing costly environmental incidents and regulatory violations, and ensuring safe storage practices.
Shipping Location	Anderson, SC 29621-3410, United States, Achterzeedijk 57, Unit 15, Barendrecht 2992SB, The Netherlands
Sub brand	BCI
Update trigger	202311241340
Usage Intensity	Heavy duty
Value proposition	BCI's / Justrite's New Angle Bracket QuickBerms offer Site and Safety Managers the widest selection of affordable secondary spill containment solutions to satisfy just about any application. Like all of our QuickBerms, installation ease and safety are at the heart of our design. By using rounded-edge angle brackets, installation is simpler and faster than flat L-bracket alternatives, as our rounded-edge brackets won't bind or tear the berm when inserted into the sleeves. Unlike flat L-bracket designs, our angle brackets are more fully enclosed within their sleeves, so you're assured of a more reliable structure, and a safer, trip-free installation for the crew working around it.

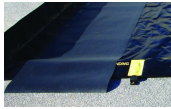

## Technical Specifications

Application	For safe outdoor storage of IBC containing chemicals, flammable and hazardous liquids.
Drive In	False
Material	Modified PVC coated fabric
Material Group	PVC

## Accessories

2833

### **Track Mat**

Safeguards the interior floor of spill containment berms from abrasion and debris damage

2835

### **Ground Mat**

Smooth, protective base for spill berms; shields against rugged terrain and debris

2839

### **REPAIR KIT,MOD PVC W/O HEATGUN**

Quick and effective berm repair kit for maintaining fluid-tight reliability

TTEM

### **EuroMat®**

Medium duty 12 mm solid ground protection mat with handholds made from 100% recycled HDPE.

AM

### **AlturnaMATS®**

Ground protection mat keep projects on time by providing safe access even in poor ground conditions
