

Air Filtration Systems for FM Cabinets

Air Filtration System for FM Cabinets

Air Filtration Systems for FM Cabinets

Safety & Storage Cabinets -

Air Filtration System for FM Cabinets, safe storage of flammable liquids and hazardous substances.

- Fixed split structure design for electric box and filtration box makes the unit much safer
- Inlet sensor monitors the concentration of flammable vapors inside the cabinet and outlet sensor monitors filter saturation.
- Adjustable volume flow for different size cabinets.
- Visual and auditory alarm sounds in the event of an issue with the filtration system.
- Equipped with Justrite Safe-T-Vent™ thermally actuated dampers, which melt at 74°C (165°F) and close the valve plate in the event of a fire to protect the cabinet and its contents by stopping the flow of air through the cabinet vents

- Indoor
- Use to filter harmful vapours from inside safety cabinets.
- Medium duty

Recommended use

Safety & Storage Cabinets - Air Filtration Systems for FM Cabinets

General

Brand	Justrite
Product Number	FS-11
Product Family	Safety & Storage Cabinets
Product Group	Safety & Storage Cabinets
Industry	Laboratories
Product Name	Air Filtration Systems for FM Cabinets
Recommended use	Use to filter harmful vapours from inside safety cabinets.
Shipping Location	Achterzeedijk 57, Unit 15, Barendrecht 2992SB, The Netherlands
Update trigger	20250616
Usage Intensity	Medium duty

VOCs Filtration Systems for FM Cabinets EU Plug

Art. nr.	Dimension (cm)	Weight (kg)
JCBA106111	270x380x410mm	15

Accessories

FSFR

Air Filtration System Filter Replacement

High-efficiency activated carbon adsorption modules are filter replacements for air filtration systems that are saturated with adsorption. They are made of granular activated carbon and have a high adsorption capacity to effectively reduce odours and harmful vapours.
