

Mounting Bracket for MC4011 Ultra Class Mining Chock

Mounting Bracket for MC4011 Ultra Class Mining Chock MC4011

Mounting Bracket for MC4011 Ultra Class Mining Chock

Wheel Chocks - Wheel Chock Accessories

The Checkers Replacement Mounting Bracket for MC4011 Mining Wheel Chock - MC4011-BRKT is used to replace the bracket on the Heavy-Duty Ultra-Class Mining Wheel Chock – MC4011.

- Designed specifically for the Heavy-Duty Ultra-Class Mining Wheel Chock – MC4011.
- Compatible with the Universal Dual Mounting Bracket for MC Series Wheel Chocks – MC1900.
- Enables easy hanging of the chock on vehicles for transport.
- Durable construction suited for heavy-duty mining applications.

- Recommended for use with ultra-class vehicles, chocking requires placing chocks snugly against wheels on sloped or level ground. Ideal for mining, construction, and quarrying sites, it secures haul trucks, loaders, and massive mining dump trucks during operations or parking.
- Heavy duty
