

# Replacement Handle for MC4011 Ultra Class Mining Chock

Replacement Handle for MC4011 Ultra Class Mining Chock

# Replacement Handle for MC4011 Ultra Class Mining Chock

## Wheel Chocks - Wheel Chock Accessories

The Checkers Replacement Handle for MC4011 Mining Wheel Chock - MC4011-HNDL is used to replace the handle on the Heavy-Duty Ultra-Class Mining Wheel Chock – MC4011.

- Designed specifically for the MC4011 Mining Wheel Chock.
- External handle for improved grip, even when wearing gloves.
- Balanced center of gravity for easier carrying and installation.

- Recommended for use with ultra-class vehicles, chocking requires placing chocks snugly against wheels on sloped or level ground. Ideal for mining, construction, and quarrying sites, it secures haul trucks, loaders, and massive mining dump trucks during operations or parking.
- Heavy duty

Recommended use
