

Hi Viz Commercial Aviation Wheel Chocks with Polyurethane Cable Handle

Hi Viz Commercial Aviation Wheel Chocks with Polyurethane Cable Handle

Aviation Chocks -

The highly visible fluorescent green commercial aircraft chock for narrow and wide body aircraft with polyurethane cable handle improves safety for commercial aircraft. This extremely reflective chock combines high visibility and an ergonomic design, suitable for both narrow and wide-body aircraft.

- SafeRay™ Technology provides the best day and night visibility
- Ergonomic design is lightweight and easy to use
- Durable and long lasting for significant cost savings
- Resistant to aircraft fuels, oils, and lubricants
- Rope-lock system & optional locking rope for extra security or loop rope to ease removal

- Use for narrow to wide-body commercial aircraft, especially for situations requiring high visibility.
- Heavy duty
