

Aerosolv[®] 360 System for recycling aerosol cans, premium puncturing unit, high-efficiency filter, wire, and goggles.

Aerosolv® 360 System for recycling aerosol cans, premium puncturing unit, high-efficiency filter, wire, and goggles. Spill Control & Environmental -

- Enclosed system—dual seal chamber eliminates potential content spray back, prevents VOC release, and reduces gunk build up
- Wheel with rack and pinion gear increases torque
- Alignment cone and two-way pressure controlled, non-sparking vent pin offers the most efficient point of puncture
- High-efficiency combination carbon filter captures odors, and VOCs
- Integrated lock out system prevents unauthorized use and tamper-proof retention plate secures unit to drum
- Non-stick coating on housing minimizes static transfer and reduces clean up

Spill Control & Environmental - Aerosolv® 360 System for recycling aerosol cans, premium puncturing unit, high-efficiency filter, wire, and goggles.

General

Brand	Justrite
Product Number	28100
Product Family	Spill Control & Environmental
Product Group	Spill Control & Environmental
Industry	Education, Mining, Oil & Gas, Industrial, Material Handling, Military, Entertainment, Power Generation, Construction, Utilities, Manufacturing, Aviation, Government, Automotive, Landscaping, Infrastructure, Facility Management
Product Name	Aerosolv® 360 System for recycling aerosol cans, premium puncturing unit, high-efficiency filter, wire, and goggles.
Series	Aerosolv®
Update trigger	20251104

Aerosolv® 360 System for recycling aerosol cans, premium puncturing unit, high-efficiency filter, wire, and goggles.

Art. nr.
