

# Folding Utility Tray

Justrite Folding Utility Trays Fast & Reliable Spill Containment

# Folding Utility Tray

## Flexible Spill Containment - Flexible Spill and Leak Containment and Control

Justrite Folding Utility Trays offer compact, quick-deploy spill containment for maintenance, fluid handling, and field operations, keeping work areas clean, safe, and organized.

- Space-Saving Storage: Folds flat and secures with an attached hook-and-loop strap for easy storage in tight spaces, vehicles, or maintenance areas.
- Rapid Deployment: Unfolds in seconds for immediate spill response or temporary containment.
- Durable Structure: Rigid wire-frame walls stay upright and maintain shape, preventing sagging or collapse under load.
- Elevated Grate Model: Keeps containers and equipment above collected fluids to reduce mess and simplify handling.
- Rugged Construction: Durable PVC resists oils, fuels, coolants, and other common liquids in a one-piece design with no loose parts to manage.
- Versatile Sizing: Available in three sizes to fit a wide range of applications.

- Contain leaks and spills from machinery & vehicles during fluid transfers.
- Medium traffic

Recommended use

# Flexible Spill Containment - Flexible Spill and Leak Containment and Control Folding Utility Tray

## General
