

DECLARATION OF CONFORMITY / MANUFACTURER'S DECLARATION

1. Product identification

Product name: Sani-Trax® Disinfecting Foot Bath

Model: 346

SKU / Article no.:

346S1824BL

346S2432BL

Description: Natural rubber disinfecting foot bath entrance mat with flexible rubber bristles/fingers and beveled edges, for use with disinfectant solution at entrances to hygiene-sensitive areas.

2. Manufacturer

Justrite Safety Group EMEA bv

Achterzeedijk 57 Unit 1, 2992 SB, The Netherlands

T: +31 (0) 180 615 744

E: saleseu@justrite.com

3. Statement

This declaration is issued under the sole responsibility of the manufacturer.

The above product is in conformity with the applicable product safety and chemical compliance requirements for the markets in which it is placed on the market, as specified below.

4. Applicable legislation and requirements

EU / EEA:

- Regulation (EU) 2023/988 on general product safety, where applicable to the sales channel and end user.
- REACH Regulation (EC) No 1907/2006, including SVHC communication obligations where applicable.
- Packaging and labelling requirements applicable in destination markets.

United Kingdom:

- General Product Safety Regulations 2005 (GB), where applicable.

- UK REACH, where applicable.

5. Supporting standards / technical specifications

- Internal product specification for model 346.
- Material specification: natural rubber.
- REACH / substance compliance declarations from material suppliers.

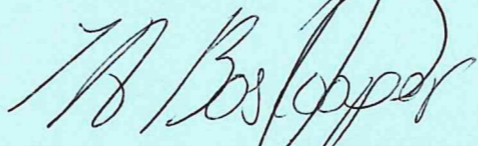

6. Intended use and limitations

- Intended for footwear sole cleaning/disinfection at entrances to hygiene-sensitive areas.
- To be used only with disinfectant solutions approved by the user for the intended site.
- Disinfectant concentration, contact time, and efficacy are dependent on the chemical used and are outside the scope of this declaration.

7. Authorised signatory

Signed for and on behalf of the manufacturer,

Notrax / Justrite Safety Group

Authorized Signature / Quality Assurance

Date of Issue: June 26, 2026
